CAGE CODE: 4AQL6

Bonding Level: \$5,000,000 per project/\$20,000,000 aggregate

Notable Streeter Projects

Department of the Army/ New Orleans District Corps of Engineers

- Design/Build Modular Construction Project—SCG is providing the New Orleans contracting division with a 10,500sf modular designed building for their new district area office located in Jefferson Parish, LA on the West Bank. (Completion date May 2009) POC: John Morton—(504) 862-1234 Email: john.j.morton@us.army.mil

US Forest Service/Boulder, CO

- Turnkey Modular Construction Project—SCG provided the US Forest Service with a 4000sf, modular designed building for their relocating staff. The project included a five-year lease with SCG maintenance plan. (Completion date February 2009) POC: Jason Rybal—(970) 295-6655 Email: jrupal@fs.fed.us

Veterans Administration/Twenty-nine Palms, CA

- Turnkey Modular Construction Project—SCG provided the VA with a modular lease for the PTSD (Post Traumatic Stress Disorder) study program at Twentynine Palms Marine base. The 4000sf, modular designed building will be their new testing facility for transitioning Marines and Navy Seamen. (Completion date August 2008) POC: Jon Wilson—(562) 826-5537 Email: jon.wilson@va.gov

Department Homeland Security/Artesia, NM

- JV/Modular Construction Project—SCG provided FLETC with a modular designed building for its border patrol training program. This 15000sf+ project was used to train new and transitioning border patrol officers for tactical and interrogation training. (Completion date November 2007) POC: not available

Westwood Village/Houston, TX

- Commercial Build Out—SCG provided services for this 104,000sf retail tenant improvement project. As construction manager, SCG scheduled and managed over 15 subcontractors, retail staff and six big box retail stores. In addition, SCG self performed interior painting for 7000sf. (Completion date July 2008) POC: Chris Wright—(972) 670-5457 Email: cwright@retailgc.com

COMPANY OVERVIEW:

Streeter Construction Group was founded to provide turnkey and design/build modular construction and tenant build-out services throughout the United States. We provide full service solutions to meet our customer's unique needs and budget while offering energy efficient and 'green' options.
